- Develop a fitness app that schedules your gym and yoga exercises.
- App also provides a daily diet routine and tracks your daily fitness.

BidCoin

- Develop a digital coin like bitcoin using a blockchain network.

E-Voting System

- Develop a e-voting system using blockchain ethereum network containing various features like aadhaar verification, fingerprint scanner.

Todo List

- A simple todo list using node js.

Catch me if u can

- A fun snake game using c++.

EXPERIENCE

MobbyPark | *Android Intern*

(Apr '20 - Jun '20)

mobbypark is an early-stage startup that provides parking space for vehicles.

- Working on the operator app.
- Working on enhancing the app and adding new features so it will be more user friendly.

TRAININGS

Android application development from coding blocks.

Android application development-Build 21 apps from udemy.

Node js from coding blocks

ACHIEVEMENTS

HackVSIT

- Develop an android app for instant payments using face authentication in 36 hr and won 3rd price.

Blaze A Rush(LFR competition)

- Secured 4th position after competing with 300+ college students in a techfest.

EDUCATION

BTech in Information Technology - Jaypee Institute Of Information Technology

(May '17 - May '21)

- CGPA - 7.3 (till 6th semester)
