2014

CGPA : 8.2

Courses

- High School-10th

WORK EXPERIENCE

Codechef Teaching Volunteer

Malviya National Institute of Technology Jaipur

Achievements/Tasks

- Given lectures on Competitive Programming as codechef volunteer

Internity Foundation Winter Intern

Remote Internship

12/2018 - 01/2019

Noida

Successfully completed Winter Internship in Data Structures and Algorithm

Web Developer

Power Grid Corporation of India Limited

05/2020 - 07/2020

Gurgaon

Power Grid Corporation of India Limited (POWERGRID), is an Indian state-owned electric utility company headquartered in Gurugram.

Achievements/Tasks

- Successfully completed project given by mentor there(Codecraft) using Node.js.

SKILLS

Web Development

c/c++

Mysql

Mongodb

Javascript

Data Structures and Algorithm

Node.js

PERSONAL PROJECTS

Railway Reservation System (06/2017)

- A console based railway reservation system implemented in c.
- Takes input source and destination and give the available trains.
- Provided with several filters like fair,time etc.

Emoji Prediction chrome Extension

- A console based emoji prediction application implemented in python.
- Used concepts of Machine Learning like LSTM and RNN.
- Takes a sentence and predict a emoticon.
- Provided with chrome extension of project and suggestion technique.

Codecraft (06/2020 - 07/2020)

- Advantages of E-learning are that the students can learn at their own pace. Same teacher can teach many more students. E-learning can be a boon to learners in remote place and those who can not afford high cost of quality education in traditional classes.
- Anyone can signup/login as a instructor and student and add video lectures if you are an instructor and enroll in courses if you are a student.
- This can really help students who really wants to study in this period of pandemic.

CERTIFICATES

Codechef Certificate of appreciation (06/2019)

Awarded codechef certificate of appreciation at Malviya National Institute of Technology

NPTEL C++ Certified (08/2018)

Successfully completed NPTEL course in c++(61/100)

Freecode camp Javascript Algorithm and Data structure (2019)
