## Career Profile

7 semester of bachelors of technology student with a passion for technology and visualization. A resourceful and hard-working person, I solve every challenge with a practical and analytical approach. I show these skills during my career in technology.

I have a very disciplined attitude for operations to be carried out and rules to be followed. Apart from giving results in projects related to the upcoming technologies, I have also managed HR recruitment of a company under the guidance of my seniors as a part of an internship. I am now eager to understand and conquer the technical aspect of how things work in MNCs and collaborating my technical know-how with the things i learned beyond my curriculum. Eager to build a career in the same.

---
