Faridabad, India 📍

Aiming to work in an organization, which offers opportunity for growth and enriches my experience and vision through constant learning.

## EDUCATION

### B.Tech-Computer Science and Engineering

Jaypee Institute Of Information Technology, Noida

2017 - Present

7.9 CGPA

### 12th (Board Examination)

D.A.V Public School, Sector-14, Faridabad

2015 - 2016

86.8%

### 10th (Board Examination)

D.A.V Public School, Sector-14, Faridabad

2013 - 2014

10 CGPA

## PROJECTS DONE

### Websec-Complete Internet Security Suite

(07/2019 - 11/2019)

- Classified Different websites based on their text using Machine Learning and Deep Learning Algorithms.
- The very basic idea was to scrape the content of the website, once the users enters the URL and then apply appropriate algorithms to classify the same.
- Implemented Admin Panel Functionality for both web and mobile.

### CAGE-Code Analysis Graphic Environment

(01/2020 - 04/2020)

- Implementation of the code flow using real-time GUI integrated system.
- Implemented Code Analyzer (to store Keywords) and Parser (compiler / interpreter component that breaks data into smaller elements for easy translation into another language)

## CERTIFICATES

### Perform Sentiment Analysis with scikit-learn

CourseEra

### Data Structures And Algorithms (DSA Self Paced)

Geeks For Geeks

## SKILLS

C/C++

Python

Data Science

Machine Learning

HTML5/CSS

MySQL/SQLITE

Data Structures and Algorithms
